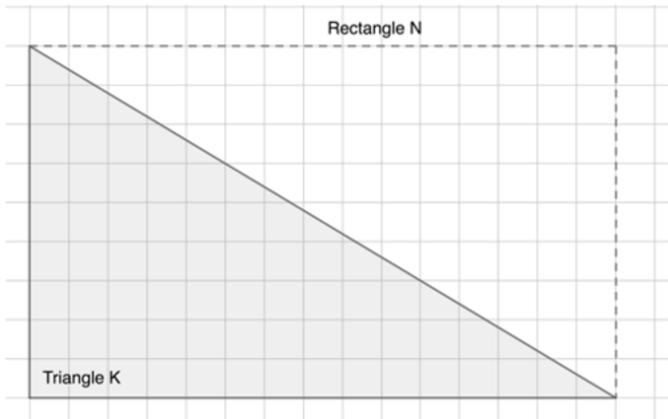
Grade 6 Accelerated Name_Answer Key________
Unit 7 Date___________________
Lesson 1 Practice Period__________________

Triangle K is a ***right triangle*** within Rectangle N. Use the figure to answer questions 1-3. Each square of the grid is 1 cm by 1 cm.

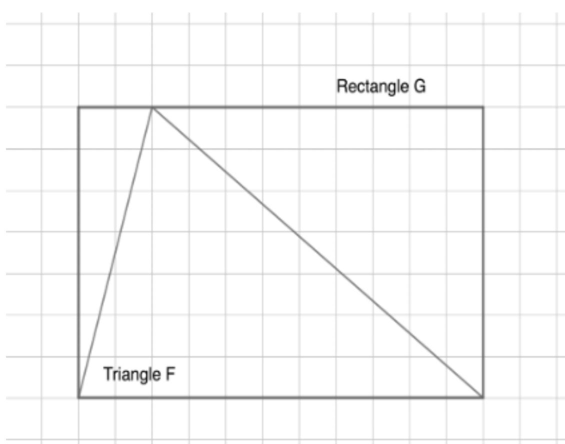


1. It takes __2__ triangles to form Rectangle N.

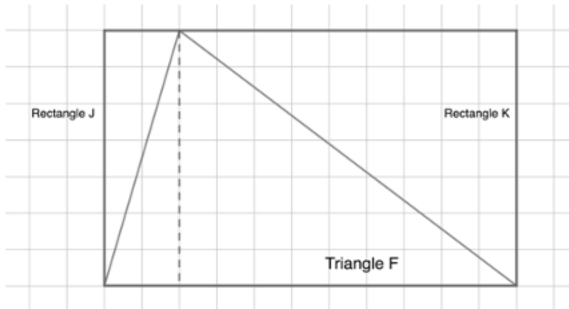
2. The area of Rectangle N is __135__ cm^2.

3. The area of Triangle K is __67.5__ cm^2.

The figure shows an ***acute triangle***, Triangle F. Rectangle G is drawn around Triangle F.



The figure can be broken into smaller rectangles, Rectangle J and Rectangle K, and 2 right triangles.



Use the figures to answer questions 4-7. Each square of the grid is 1 cm by 1 cm.

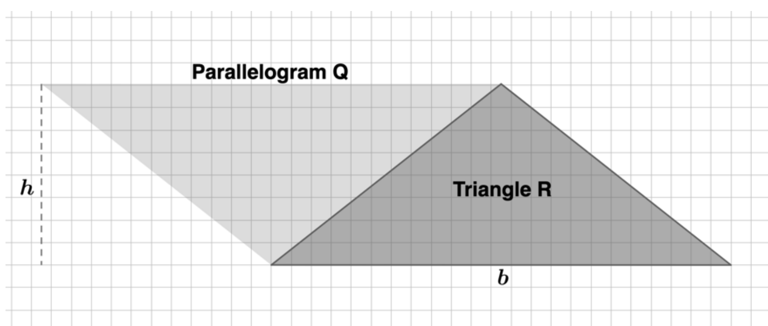
4. The area of Rectangle J is ___14___ cm^2.

5. The area of Rectangle K is ___63___ cm^2.

6. The area of a right triangle is __$\frac{1}{2}$__ of the area of a rectangle.

7. The total area of Triangle F is __38.5__ cm^2.

Triangle R is an ***obtuse triangle***. Parallelogram Q is formed by duplicating Triangle R and rearranging it.



Use the figures to answer questions 8-10. Each square of the grid is 1 cm by 1 cm.

8. The area of Parallelogram Q is __184___ cm^2.

9. Triangle R represents __$\frac{1}{2}$__ of the figure of Parallelogram Q.

10. The area of Triangle R is __92___ cm^2.
