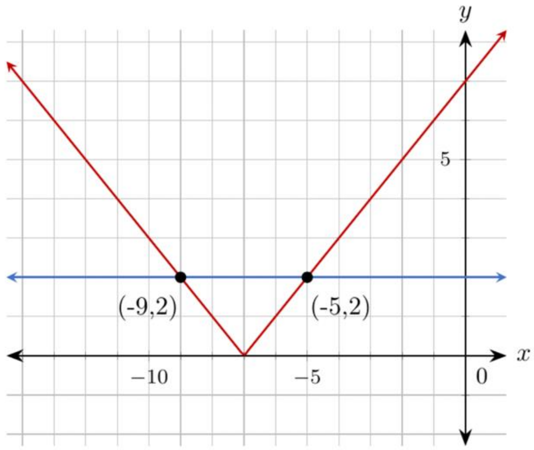
Algebra 1: Unit 10, Lesson 2

1. The graphs of the functions $y = |x+7|$ and $y = 2$ are shown on the coordinate plane.



What are the minimum and maximum x-values for when the function $y = |x+7|$ is less than or equal to 2?

2. A company develops computer chips that are 10 nanometers (nm) wide. Their acceptable variation is $0.0013\ nm$.

What is the minimum acceptable size of a computer chip?

3. An absolute value function is shown.

$f(x) = |x - 25|$

What is the vertex of the function?
