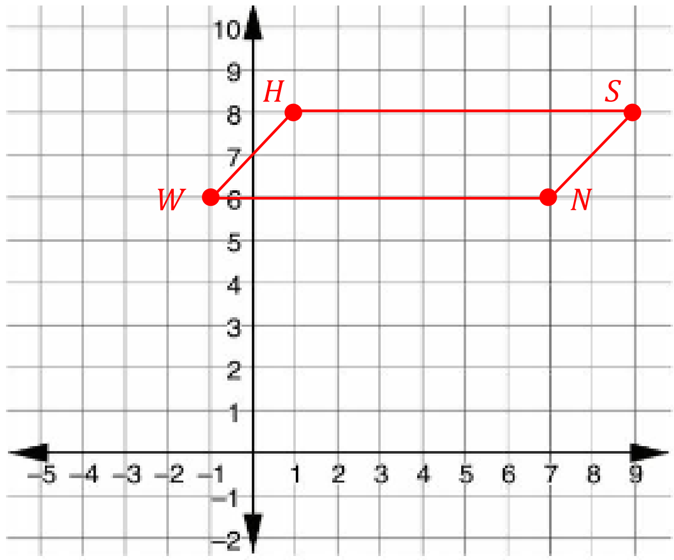
Lesson 13 Homework

Name Answer Key________
Date____________________
Period___________________

1. Parallelogram $SHWN$ has vertices at $S(9,8)$, $H(1,8)$, $W(-1,6)$, and $N(7,6)$.



a. Graph $SHWN$.

b. Complete the table.

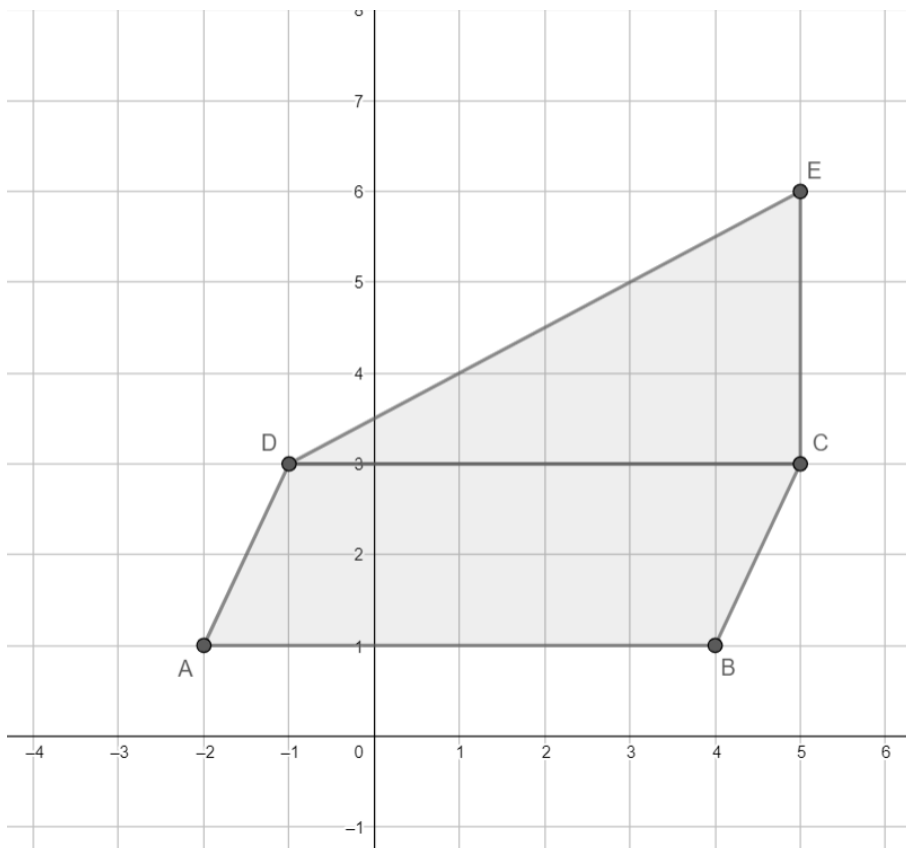
Line Segment	Length
$\overline{SH}$	8
$\overline{HW}$	$\sqrt{2^2+2^2}=2\sqrt{2}$
$\overline{WN}$	8
$\overline{SN}$	$\sqrt{2^2+2^2}=2\sqrt{2}$

c. What is the perimeter of $SHWN$?

$2(2\sqrt{2})+2(8)=4\sqrt{2}+16\approx 21.66$

d. What is the area of $SHWN$?
$2\cdot 8=16$

2. The composite figure shown is created by $A(-2,1)$, $B(4,1)$, $C(5,3)$, $D(-1,3)$, and $E(5,6)$.



a. Complete the table. Round your answer to the nearest thousandth.

Figure	Perimeter	Area
$\triangle CDE$	$6+3+\sqrt{6^2+3^2} \approx 15.708$	$\frac{1}{2}(3)(6) = 9$
$ABCD$	$2\sqrt{1^2+2^2}+2(6) \approx 16.472$	$2 \cdot 6 = 12$

b. What is the perimeter of the composite figure?
$\sqrt{5}+\sqrt{45}+3+\sqrt{5}+6 \approx 20.180$

c. What is the area of the composite figure?
$9+12=21$
