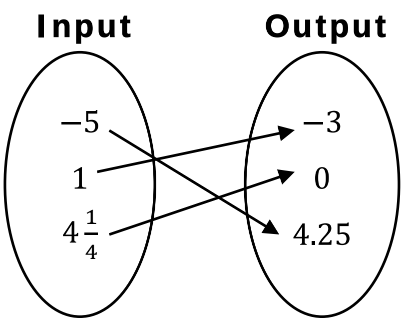
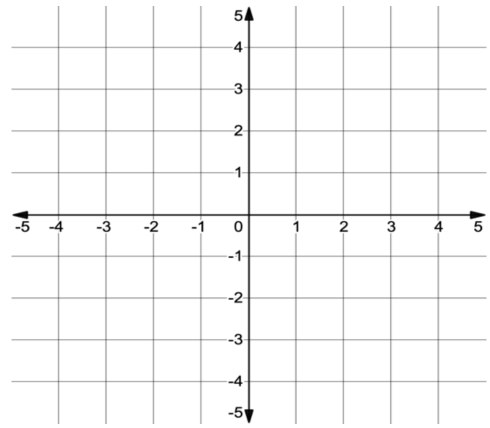
Grade 8
Unit 10
Lesson 1 Practice

Name____________________
Date____________________
Period__________________

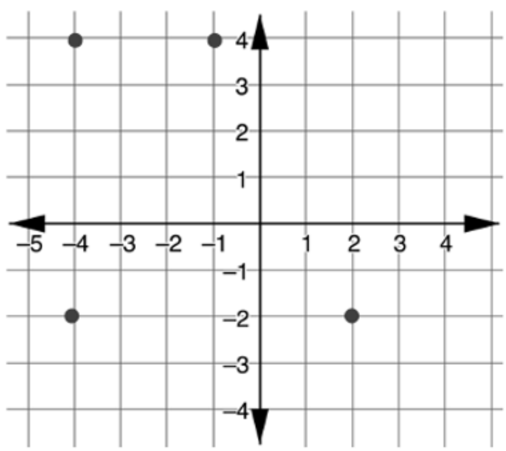
1. Express the given mapped relation as a table and a graph.



Input	Output



Use the relation graphed below to complete questions 2-4.

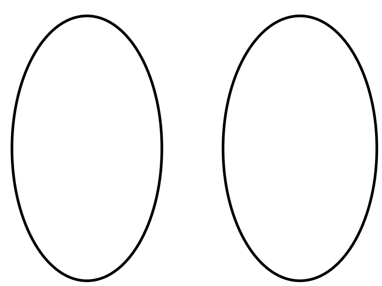


2. Complete the input-output table for the graph.

3. Does -4 represent an input or an output value in the relation?

4. Create a mapping diagram of the relation.

Input	Output



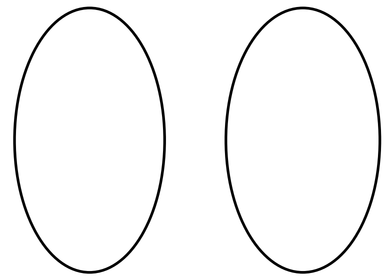
Use the table to complete questions 5-7.

5. Complete the input-output table for the rule "input times 3 minus 2".

Input	Output
-5	
0	
2	
5	

6. How many input-output pairs are indicated by the table of values?

7. Create a mapping diagram of the input-output table.



Use the table to complete questions 8-10.

Input	Output
-2	-5
0	-5
2	3
4	6
6	13

8. Write the set of ordered pairs that represents the relation.

9. Make a list of all the independent variable values from the relation above.

10. Which numbers would represent the x-values from the relation above?
