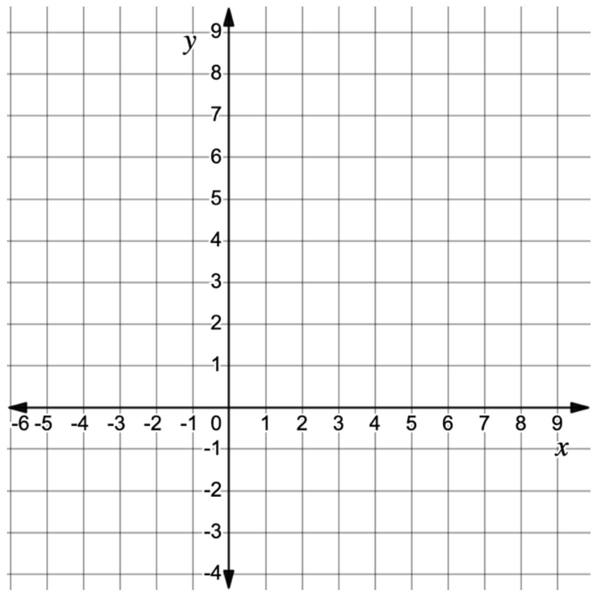
Lesson 8 Homework　　　Period___________________

Use the following information for questions 1-4. $PQRT$ has vertices at $P(4,-3)$, $Q(8,4)$, $R(1,8)$, and $T(-3,1)$.

1. Graph $PQRT$ on the coordinate plane.



2. Complete the table.

Line Segment	Length	Slope	Length of Diagonal Line Segment
$\overline{PQ}$			
$\overline{QR}$			
$\overline{RT}$			
$\overline{PT}$			
$\overline{PR}$			
$\overline{QT}$			

3. Circle all classifications that apply to $PQRT$.

Isosceles Trapezoid　　Kite　　Parallelogram　　Rectangle

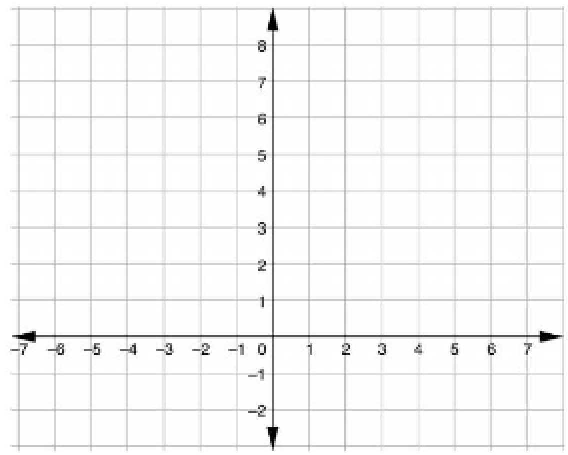
Rhombus　　Square　　Trapezoid

4. Complete the statement.

Since $PQRT$ [o has / o does not have] congruent diagonals, $PQRT$ is classified as a(n)

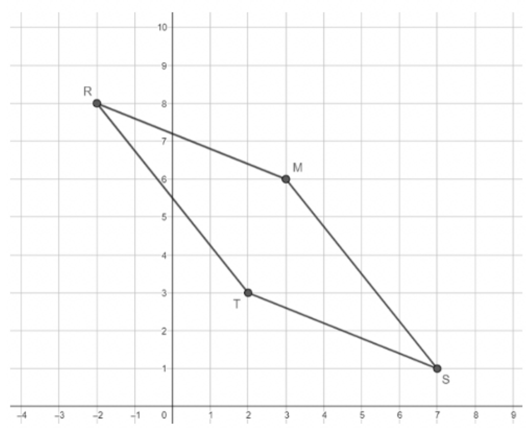
________.

Use the following information for question 5. $PRKS$ has vertices at $P(-3,4)$, $R(1,0)$, $K(6,-1)$, and $S(2,3)$.



5. $PRKS$ is classified as a ___________________ because...

Use the following information for question 6-7. Saniya graphed $SMRT$ and classified the quadrilateral as a kite.



6. Do you agree with Saniya?

7. Justify your answer using properties and showing your work.

.
