

Grade 8
Unit 6
Lesson 3 Practice

Name **Answer Key** _____
Date _____
Period _____

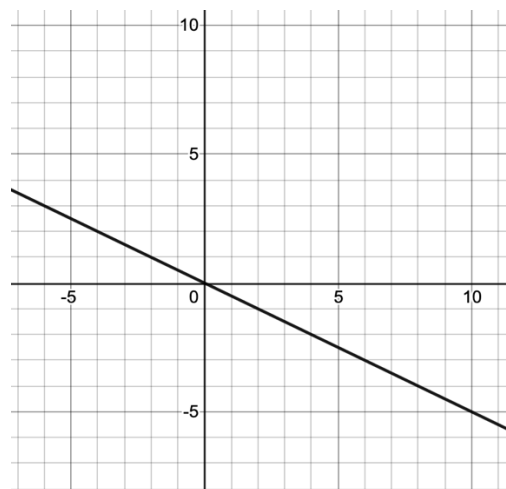

Determine if each of the following is proportional or not proportional.

1.

Not proportional

2.

Proportional

3. $y = 4 + x$

Not proportional

4. $y = -1.75x$

Proportional

5.

x	y
2	300
4	600
9	1,350

Proportional

6.

x	y
3	205
6	410
12	820

Not Proportional

Complete the tables so that they represent a non-proportional relationship.

7.

x	y
3	4
6	7
9	10

Answers will vary

8.

x	y
2	50
3	74
4	98

Answers will vary

9. Write an equation that represents a non-proportional relationship.

Answers will vary

$$y = 1.5x + 1$$

10. Create a graph that represents a non-proportional relationship.

Answers will vary, but it should be a line that does not go through the origin
