

Grade 8

Unit 12

Lesson 4 Practice

Name_____

Date_____

Period_____

For questions 1-2, consider the expression $18f - 27$.

1. Write an expression equivalent to $18f - 27$ in factored form.

2. Choose a different common factor from question 1 and use it to write a different equivalent expression.

For questions 3-4, consider the expression $24a - 16b$.

3. Write an expression equivalent to $24a - 16b$ in factored form.

4. Choose a different common factor from question 3 and use it to write a different equivalent expression.

For questions 5-6, fill in the blanks of each equation to make it true.

5. $40g + 4h = \underline{\hspace{1cm}} (\underline{\hspace{1cm}} g + h)$

6. $-28m + 14n = \underline{\hspace{1cm}} (\underline{\hspace{1cm}} m - n)$

For questions 7-10, rewrite each expression in an equivalent factored form.

7. $-6w + 42$

8. $-24z - 36$

9. $21p + 84r$

10. $-10s + 50$
