

1. The heights, in meters (m), of points of interests in the state of Florida are shown.

Point of Interest	Height (m)
Panorama Tower (Miami)	$264\frac{14}{25}$
Bank of America Tower (Jacksonville)	$188\frac{3}{50}$
Britton Hill (Walton County)	$105\frac{3}{20}$
Iron Mountain (Polk County)	$89\frac{23}{25}$

- a. Determine the total height of Panorama Tower and Bank of America Tower.

height	$452\frac{31}{50}$ m
--------	----------------------

- b. Britton Hill is the highest natural point in Florida. Bok Tower sits on top of Iron Mountain. Bok Tower is $62\frac{1}{2}$ meters tall. Determine the difference between the top Bok Tower and the top of Britton Hill.

height	$47\frac{27}{100}$ m
--------	----------------------

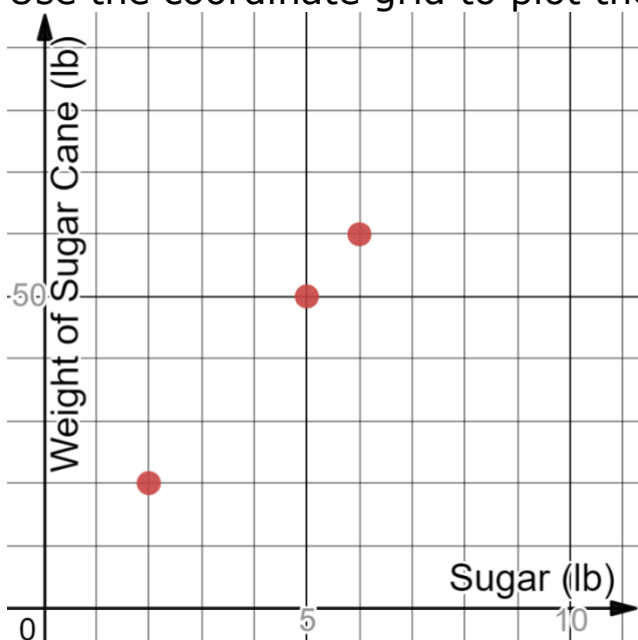

2. Each morning Alyssa makes fresh-squeezed orange juice. Each orange produces $\frac{1}{4}$ cup of orange juice. Determine how many cups of orange juice Alyssa can make with 27 oranges.

cups	$6\frac{3}{4}$
-------------	----------------

3. Florida is the largest producer of sugar cane in the United States. Sugar cane is grown in Palm Beach, Hendry, Glades, and Martin counties. The table shows the amount of sugar, in pounds (lb), that can be harvested from sugar cane based on the weight, in lb, of the sugar cane stalk.

Sugar (lb)	Sugar Cane Stalk (lb)
2	20
5	50
6	60

- a. Use the coordinate grid to plot the ordered pairs from the table.

- b. Write an equation that represents the relationship between the number of pounds of sugar, x , and y , the weight (lb) of the sugar cane stalk.

equation	$y = 10x$
-----------------	-----------

4. A rectangle has a length of 6.2 feet (ft) and a width of 18.3 ft.

- a. Determine the perimeter of the rectangle.

perimeter	49 ft
------------------	-------

- b. Determine the area of the rectangle.

area	113.46 ft ²
-------------	------------------------

Determine the value of each expression. Show your work.

5.	$5684 \div 72$	Work	Answer $78\frac{68}{72}$
6.	$8\frac{2}{5} \times 4\frac{1}{2}$	Work	Answer $\frac{378}{10}$
7.	$\frac{7}{4} - \frac{3}{2}$	Work	Answer $\frac{1}{4}$
8.	$\frac{1}{20} \div 8$	Work	Answer $\frac{1}{160}$
