

Complete the table by rewriting each multiplication expression using the distributive property, modeling with area, and finding the product.

Multiplication Expression	Distributive Property	Area Model	Product
1. 41×8		_____ + _____ _____ _____	
2. 6×89		_____ + _____ _____ _____	
3. 96×3		_____ + _____ _____ _____	

For each expression, generate an equivalent numeric expression using the distributive property and then find the value.

4. 9×42

5. $28 \cdot 7$

6. 5×64
