

Grade 6
Unit 3
Lesson 3 Practice

Name _____
Date _____
Period _____

A fraction is shown.

$$\frac{1}{8}$$

1. Rewrite the fraction as an equivalent decimal.
2. Based on your answer from question 1, what is an equivalent percentage to $\frac{1}{8}$?

Complete the table by rewriting each fraction as a decimal and as a percentage.

	Fraction	Decimal	Percentage
3.	$\frac{11}{40}$		
4.	$\frac{13}{8}$		

Complete the table by rewriting each value in its equivalent forms. Simplify any fractions if possible.

	Fraction	Decimal	Percentage
5.		0.088	
6.			175%
7.	$2\frac{9}{20}$		
8.		3.15	
9.			6.4%

10. Determine which of the numerical values is not equivalent to the others. Explain your reasoning.

7.2

$\frac{18}{25}$

72%

0.72

$\frac{72}{100}$
