

Grade 6
Unit 6
Lesson 2 Practice

Name Answer Key
Date _____
Period _____

Alyssa has been collecting erasers for one year. Every month Alyssa has bought two packages of erasers. One package contains an assortment of animal erasers and the other contains an assortment of food erasers.

For questions 1 through 5, use the double number lines that represent the total animal and food erasers each month.

1. How many erasers are in the animal eraser package each month?
2 erasers
2. How many erasers are in the food eraser package each month?
3 erasers
3. For every 2 animal erasers(s) there are 3 food erasers(s).
4. Alyssa had 8 animal erasers and 12 food erasers after the 4th month collecting erasers.
5. Complete the statements below.
 - a. In

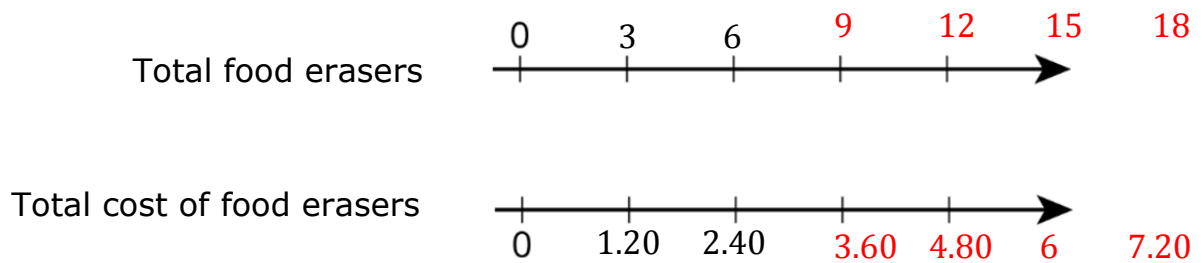

☐ 9
☒ 6

 months Alyssa had 18 food erasers.
 - b. When Alyssa had 30 food erasers, she also had

☒ 20
☐ 30

 animal erasers.

Alyssa has been keeping up with the total spent on food erasers using the number lines shown.

For questions 6 through 10, use the double number line that describes the total food erasers and total cost of collecting food erasers.

6. What is the ratio of cost of food erasers to total food erasers?

$$\frac{\$1.20}{3} \text{ or } \frac{\$0.40}{1}$$

7. How much does Alyssa spend on food erasers each month?

\$1.20

8. Alyssa had 18 food erasers when she had spent \$7.20.

9. There were 24 food erasers in her collection after 8 months.

10. Complete the statements below.

- a. It took Alyssa
☐ one year
☐ 11 months
 to have more than 33 food erasers.

- b. When Alyssa had spent
☐ \$14.40
☐ \$9.60
 , she had
☐ 26
☐ 36
 food erasers.
