

Grade 6
Unit 8
Lesson 2 Practice

Name _____
Date _____
Period _____

Four triangles are shown on the grids. For each triangle, a base and its corresponding height are labeled. The side length of each square is 1 inch (in.). Find the area of each triangle. Show your work and include units.

1.		Area = _____
2.		Area = _____
3.		Area = _____
4.		Area = _____

For each triangle below, circle the base measurement and put a square around the height measurement. Then, use the base and height to find the area of each triangle. Show your work and include units.

5.		Area = _____
6.		Area = _____
7.		Area = _____
8.		Area = _____

Jack found the area of the triangle shown. His work is also shown.

$$\text{Area} = 21 \times 13 \times 0.5$$

$$\text{Area} = 136.5 \text{ ft}^2$$

9. Explain why Jack's answer is incorrect.

10. Find the correct area of the triangle.
