

1. What is the inverse of subtraction?

2. What is the inverse of addition?

For questions 3-7, use the algebra tiles shown.

3. What expression represents the left side of the equation?

4. What expression represents the right side of the equation?

5. Write the algebraic representation of the equation.
6. What operation would be used to solve the equation?
7. What value of y makes the equation true?
8. Represent the equation $x + 3 = 11$ by drawing a model using Algebra Tiles.
9. Represent the equation $7 = y - 2$ by drawing a model using Algebra Tiles.
10. Represent the equation $6 = 5 + g$ by drawing a model using Algebra Tiles.
