

Name: _____

Period: _____ Date: _____

7th Grade

Lesson 3.7 Skills Practice Worksheet

On Saturday, Nicole bought 6 pizza pies for \$8.99 each and 2 bottles of sodas for \$1.97. The pizza place gave her a \$3.25 discount for every 3 pizzas that she purchased.

1) How much money would it cost her before the discount?

2) How much was the discount given?

3) How much money did it cost Nicole at the pizza place?
