

Name: _____

Period: _____ Date: _____

7th Grade
Lesson 2.6 Skills Practice Worksheet

Directions: List the probabilities in order from least to greatest.

1. 0.32 16% $\frac{4}{7}$ 0.89 0.6 21%

Order least to greatest

2. $\frac{8}{9}$ 19% 0.3 $\frac{3}{5}$ $\frac{3}{4}$

Order least to greatest

3. Nadia plays golf and completes the course “under par” 84% of the time. She gets a whole-in-one 16% of the time. Explain which event is more likely and why.

Directions: Find the probability of each event and determine its likeness using the options below.

impossible	unlikely	likely
Neither likely or unlikely		certain

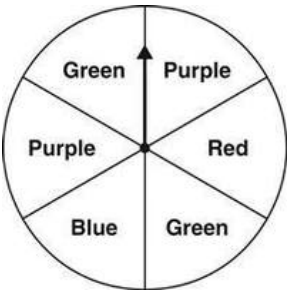

4. P(green) is _____.
The event is _____.

5. P(Purple) is _____. The event is _____.

6. P(green, purple, blue) is _____. The event is _____.

7. P(orange) is _____. The event is _____.

8. P(red) is _____. The event is _____.
