

6Ath Grade: Unit 15, Lesson 2

1. Is choosing a card at random from a deck of cards considered a simple experiment?
2. If an event is said to be more probable, what does this mean for the event?
3. A table of events is shown. From the information in the table, which event has a greater likelihood of occurring?

Event 1	Event 2
Landing on heads when tossing a fair coin.	Rolling a specific number on a six-sided dice.
