

MTR 4.1 — Engage in discussions that reflect on the mathematical thinking of self and others.

STUDENTS WHO MASTER THIS STANDARD...

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

TEACHER MOVES (FLDOE CLARIFICATIONS)

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

QUESTION STEMS TO USE TOMORROW

- *"Do you agree with their method? Why or why not?"*
- *"Can you restate what your partner just said?"*
- *"Whose strategy was more efficient? Defend your answer."*
- *"Where is the error, and how would you fix it?"*
