

MTR 6.1 — Assess the reasonableness of solutions.

STUDENTS WHO MASTER THIS STANDARD...

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

TEACHER MOVES (FLDOE CLARIFICATIONS)

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, “Does this solution make sense? How do you know?”
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students’ ability to verify solutions through justifications.

QUESTION STEMS TO USE TOMORROW

- *“Before you solve — estimate. What’s a reasonable answer?”*
- *“Does your answer make sense in this context? How do you know?”*
- *“What benchmark could you compare this to?”*
