

Grade 7
Unit 4
Lesson 9 Practice

Name _____
Date _____
Period _____

For questions 1 – 10, round to the nearest hundredth. Use 3.14 for π .

Given the radius, determine the area of each circle.

1. $8in$

2. $32.4cm$

3. $\frac{4}{5}ft$

Given the diameter, determine the area of each circle.

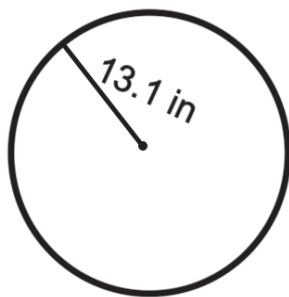

4. $18m$

5. $76.1mm$

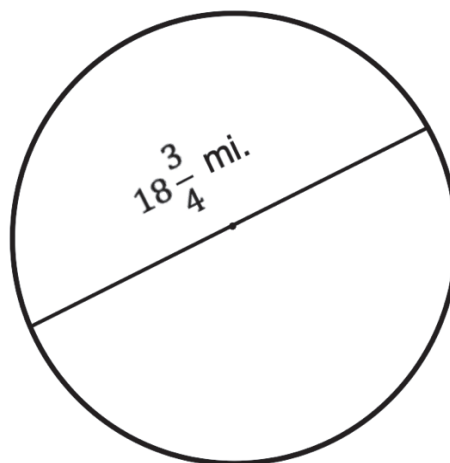

6. $19.1in$

Given the radius or diameter, find the area of the circle.

7.

8.

When an earthquake occurs, shaking can be felt in every direction from the epicenter. An earthquake in California was felt by everyone within 175 miles from the epicenter.

9. Draw a diagram of the scenario.

10. Determine the area that felt the earthquake.
