

Grade 7
Unit 4
Lesson 8 Practice

Name **Answer Key** _____
Date _____
Period _____

1. **Area** is the measure, in square units, of the inside region of a closed two-dimensional figure.

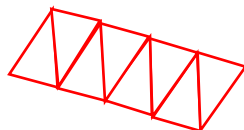

2. What shape does a circle with 4 sections resemble?

A parallelogram

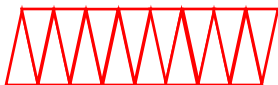

3. What shape does a circle with 8 sections resemble?

A parallelogram

4. What shape does a circle with 16 sections resemble?

A rectangle

5. The dimension of the circle that corresponds to one height of the rectangle is
the radius.

6. The dimension of the circle that corresponds to one base of the rectangle is
half the circumference.

7. The formula for the area of what shape can be used to discover the area of a circle?
Rectangle

8. The base of a rectangle is half of the circumference of the circle.

9. The height of a rectangle is the radius of the circle.

10. What is the formula for the area of a circle?

$$A = \pi r^2$$
