

Grade 6 Accelerated
Unit 10
Lesson 6 Practice

Name Answer Key
Date _____
Period _____

A track coach asked his track team what their personal records were for running the mile. Below are the times, in minutes, for the 10 male students.

15.1, 4.25, 6.34, 11.47, 7.38, 8.22, 3.45, 5.55, 10.31, 9.33

Below are the times, in minutes, for the 10 female students.

5.32, 12.34, 6.11, 8.23, 9.41, 7.22, 4.59, 11, 7.56, 10.10

Complete table by using the times of the male and female students shown above.

Measure	Male Students	Female Students
1. Mean	8.14	8.19
2. Median	7.8	7.90
3. Range	11.65	7.75
4. IQR	4.76	3.99
5. Potential Outliers	15.1	12.34

6. Which group of students has smaller mean, the males or the females? Explain your reasoning.

The males have a smaller mean by 0.05.

7. Which group of students, males or females, have a smaller measure of variability? Explain your reasoning.

Females, both in range and IQR.

Two different music stores were selling guitars. The price comparison from the two stores are listed below.

Store A's Guitar Prices

Stem	Leaf
2	1 2 8
3	3 6
4	5 8 8
5	1 6
6	0
7	2 2
8	1 6
9	1

Key: 2|1 = \$210.00

Store B's Guitar Prices

Stem	Leaf
4	5 8
5	6 9
6	1 1 3 5
7	5 5 6
8	0 6
9	1 8
10	0

Key: 2|1 = \$210.00

8. Use the data to fill out the table.

Measure	Store A	Store B
Mean	531.25	711.88
Median	495	700
Range	700	550
IQR	375	230
Outliers	None	None

9. Which store has a greater mean? Which store has a greater median?

Store B for both

10. Which store has a greater measure of variability?

Store A for both
