

Grade 6 Accelerated
Unit 4
Lesson 4 Practice

Name Answer Key
Date _____
Period _____

Determine the distance between each set of ordered pairs.

$$|0| + |-6| = \boxed{6 \text{ units}}$$

$$|-3| + |4| = \boxed{7 \text{ units}}$$

$$|5| + |-5| = \boxed{10 \text{ units}}$$

$$|-5| + |1| = \boxed{6 \text{ units}}$$

5. $\left(4\frac{1}{2}, \underline{12}\right)$ and $\left(4\frac{1}{2}, \underline{7\frac{1}{2}}\right)$

$$|12| - \left|7\frac{1}{2}\right| = \boxed{4\frac{1}{2} \text{ units}}$$

6. $(3, \underline{-2})$ and $(3, \underline{0})$

$$|0| + |-2| = \boxed{2 \text{ units}}$$

7. $\left(\underline{7.5}, \frac{21}{2}\right)$ and $(\underline{-3}, 10.5)$

$$\frac{21}{2} = 10.5$$

$$|7.5| + |-3| = \boxed{10.5 \text{ units}}$$

8. $\left(\underline{6\frac{7}{8}}, 2\right)$ and $\left(\underline{-\frac{5}{8}}, 2\right)$

$$\left|6\frac{7}{8}\right| + \left|-\frac{5}{8}\right| = 7\frac{4}{8} = \boxed{7\frac{1}{2} \text{ units}}$$

9. $(\underline{6}, 16.5)$ and $(\underline{-2}, 16.5)$

$$|6| + |-2| = \boxed{8 \text{ units}}$$

10. $\left(\underline{-1.5}, -2\frac{1}{4}\right)$ and $\left(\underline{-8.5}, -2\frac{1}{4}\right)$

$$|-8.5| - |-1.5| = \boxed{7 \text{ units}}$$
