

Name: _____

Period: _____ Date: _____

7th Grade
Lesson 4.9 Skills Practice Worksheet

Directions: Show the given radius or diameter of the circle by drawing it on the circle. Then find the area of the circle using the given representation of pi (π). Round your answer to the nearest hundredth, when needed.

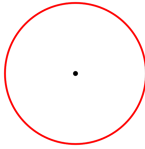

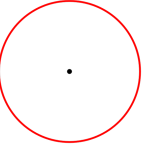

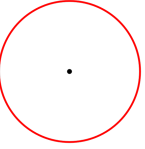

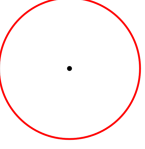

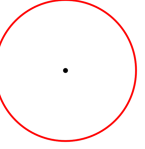

1. <u>Radius:</u> 12 in Use 3.14 for π .	
2. <u>Diameter:</u> 6.84 cm Use the π button on the calculator.	
3. <u>Radius:</u> $\frac{7}{8}$ mm Use $\frac{22}{7}$ for π .	
4. <u>Diameter:</u> $8\frac{10}{11}$ ft Use $\frac{22}{7}$ for π .	
5. <u>Radius:</u> 13 in Use the π button on the calculator.	
6. <u>Diameter:</u> 34.2 m Use 3.14 for π
