

Grade 6 Accelerated
Unit 13
Lesson 6 Homework

Name Answer Key
Date _____
Period _____

Write an algebraic expression to represent each real-world situation.

1. Olivia has 15 videogames downloaded to her device. Her friend has x more videogames than her. How many songs does her friend have?

$$15 + x$$

2. Trevor has x tickets from a local arcade. His brother has 15 times more tickets than Trevor. How many tickets does his brother have?

$$15x$$

3. James earned 60 points while playing a card game. Arthur earned x fewer points than James. How many points did Arthur earn?

$$60 - x$$

4. Javier has 28 books and wants to put an equal number of books on x bookshelves. How many books go on each shelf?

$$28 \div x \text{ or } \frac{28}{x}$$

5. Francesca has a plant that measured h inches tall last week. This week, the plant is 12 inches tall.

$$12 - h$$

Answer may vary.

For each expression, create a real-world scenario that the algebraic expression could represent.

6. $x - 5$

Valerie had x dollars and spent \$5 on lunch.

7. $18x$

In a class of 18 students, each student earns x amount of prizes.

8. $\frac{150}{y}$

Jamie has 150 stickers that she wants to split evenly among y friends.

9. $19 + k$

Joshua had k dollars and earned \$19 More for mowing his neighbor's lawn.

10. $62 - h$

Tony has to complete 62 hours of community service and has completed h hours for helping at the food pantry.
