

Grade 6 Accelerated
Unit 3
Lesson 5 Homework

Name _____
Date _____
Period _____

Write a value that represents each description.

1. A temperature drop of 14°
2. A withdrawal of \$29.97 from a checking account
3. A gain of 4 yards in a football game
4. An elevation of 5,836 feet above sea level

Marcy and Anya are comparing the money in their bank accounts. Marcy just opened her account with a deposit of \$35.25. Anya owes the bank \$12.50.

5. Write a rational number that represents each person's account balance.

Marcy: _____

Anya: _____

6. Plot both rational numbers on the number line.

7. What does 0 represent in this context?

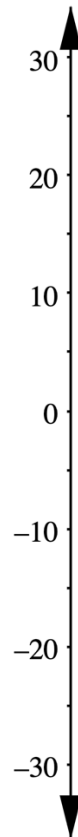

A scientist is tracking animals in Blue Spring State Park. She notices that there is a pelican flying 23 feet above sea level and a manatee swimming 18 feet below sea level.

8. Write a rational number that represents each animal's elevation.

Pelican: _____

Manatee: _____

9. Plot both rational numbers on the number line.

10. What does 0 represent in this context?
