

Grade 6 Accelerated
Unit 3
Lesson 6 Homework

Name _____
Date _____
Period _____

1. Plot -3 and its opposite on the number line.

2. On the number line, plot a temperature of 18° below zero and its opposite. What is the meaning of 0 in this context?

3. Plot a withdrawal of \$28.50 and a deposit of the same amount on the number line. What is the meaning of 0 in this context?

From Isaac’s house, if he walks 0.6 miles West, he’ll reach the library, and if he walks 0.6 miles East, he’ll reach the park.

4. Model all three locations on the number line.

5. What does 0 represent in this situation?

6. From his house, is it farther for Isaac to go to the library or to the park?

Complete the table for each description.

	Description	Rational Number	Opposite	Meaning of Opposite	Meaning of 0
7.	A deposit of \$182.37				
8.	A gain of 5 yards				
9.	11,729 feet below sea level				
10.	A temperature increase of 2.8°
