

Unit 10: Worked Examples

1. What is the mean of the data?

2019-2020 NCAA Women's Division 1 Soccer Top Scorers

$$39 + 39 + 39 + 40 + 40 + 40 + 42 + 43 + 46 + 48 + 48 + 49 + 61 + 63 + 73 = 710$$

$$\text{mean} = \frac{710}{15} = 47.\bar{3}$$

2. Determine the mean, median, range, and IQR of the data.

Text	5	20	45	9	13	12	4	1	11
Email	25	15	35	24	30	19	29	38	12

Text

1, 4, 5, 9, 11, 12, 13, 20, 45

$$\text{mean} = \frac{120}{9} = 54$$

$$\text{median} = 11$$

$$\text{range} = 45 - 1 = 44$$

$$\text{IQR} = 16.5 - 4.5 = 12$$

Email

12, 15, 19, 24, 25, 29, 30, 35, 38

$$\text{mean} = \frac{227}{9} = 25.\bar{2}$$

$$\text{median} = 25$$

$$\text{range} = 38 - 12 = 26$$

$$\text{IQR} = 32.5 - 17 = 15.5$$
