

Grade 6 Accelerated
Unit 10
Lesson 7 Practice

Name _____
Date _____
Period _____

Hadley has two different ways of doing homework, on the computer or on paper. Hadley wanted to know which way of doing homework was quicker, so she asked her friends how long it took them to complete their homework for both types of assignments. Their times, in minutes, are listed below.

Online homework: {15.23, 19.12, 23.00, 45.45, 30.42, 27.32, 18.47, 36.21}

Paper homework:

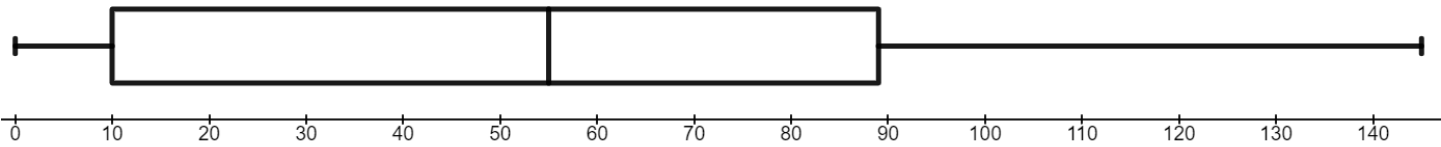

10.34	9.55	12.56	32.48	8.21	15.44	17.52	11.01
-------	------	-------	-------	------	-------	-------	-------

Using the data shown above complete the table below.

	Online Homework	Paper Homework
1. Mean		
2. Median		
3. IQR		
4. Range		

5. What are the similarities and differences in the data? Explain your reasoning.

Dominic was asking his friends how long they spent playing video games, and the time they spent playing outside each week. The data for time, in minutes, spent playing video games is represented by the box plot below.

Time playing outside (in minutes): {45, 10, 0, 32, 145, 100, 65, 75, 89, 5}

Using the data above, complete the table below.

	Playing Video Games	Playing Outside
6. Mean		
7. Median		
8. IQR		
9. Range		

10. What are the similarities and differences in the data? Explain your reasoning.
