

6Ath Grade: Unit 14, Lesson 5

- Francisco was keeping track of his plant's growth. On Tuesday, he measured the plant and found that it was 2 centimeters taller than it had been on Monday. On Tuesday, the plant was 8 centimeters tall. He wrote two different equations to represent the situation. What does h represent in his equations?

Equation A	Equation B
$h + 2 = 8$	$8 - h = 2$

- Gael and Aniyah are on the school track team. Gael ran 500 meters in t seconds. Aniyah ran 500 meters 4 seconds slower than Gael. Write an expression that represents Aniyah's 500 meter time, in seconds.
- At a soccer game, there are 35 children and 39 adults. Write an addition equation to show how many total people there were at the soccer game.
