

Grade 6 Accelerated
Unit 15
Lesson 2 Homework

Name _____
Date _____
Period _____

Simple Experiment	Game	Sample Space
Rolling a fair 6 sided number cube 	Player rolls a standard number cube and wins if it lands on a composite number	
Spinning the spinner 	Player spins the spinner and wins if it lands on a color that is used to make purple.	

- What are the possible outcomes in the event of rolling a composite number for Game 1?
- What fraction of the possible outcomes from Game 1 results in a win?
- What are the possible outcomes in the event of spinning a color that can be used to create purple?
- What fraction of the possible outcomes from Game 2 results in a win?
- Which game does a player have a greater likelihood of winning?

For each simple experiment, determine the sample space.

6. A glass jar contains 6 red, 4 green, 3 blue and 5 yellow marbles.

Sample Space

7. The Mathletes club at school must select a day of the school week to meet for their practices.

Sample Space

8. Drawing a face card from a standard deck of cards

Sample Space

9. Flipping a penny

Sample Space

10. Selecting a random month of the year and getting a month that starts with the letter "J"?
