

Algebra 1
Unit 1
Lesson 1 Practice

Name _____
Date _____
Period _____

1. The graph

is the parent function for a(n)

- ☐ Linear function
- ☐ Quadratic function
- ☐ Cubic function
- ☐ Square root function
- ☐ Cube root function
- ☐ Absolute Value function
- ☐ Exponential function

2. The equation $y = \sqrt{x}$ is the parent function for a(n)

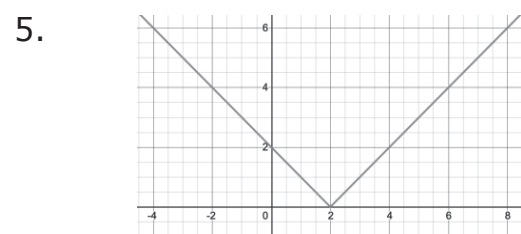

- ☐ Linear function
- ☐ Quadratic function
- ☐ Cubic function
- ☐ Square root function
- ☐ Cube root function
- ☐ Absolute Value function
- ☐ Exponential function

3. The equation $y = |x|$ is the parent function for a(n)

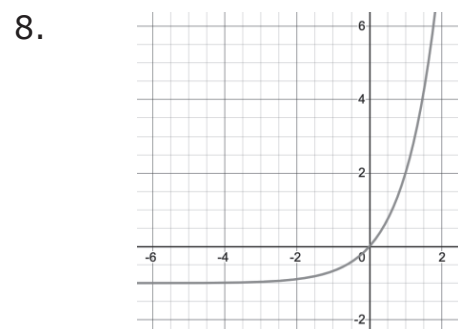

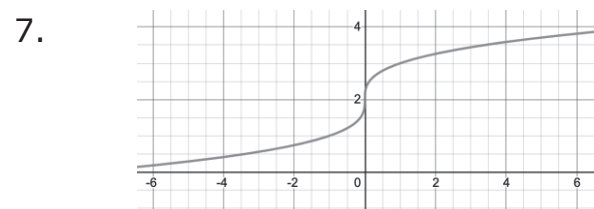

- ☐ Linear function
- ☐ Quadratic function
- ☐ Cubic function
- ☐ Square root function
- ☐ Cube root function
- ☐ Absolute Value function
- ☐ Exponential function

For equations 4-10, classify the function family for each equation or graph.

4. $y = \frac{3}{5}x - 9$

6. $y = -3\left(\frac{1}{2}\right)^x$

9. $y = (x - 3)^3 + 2$

10. $y = -4\sqrt{x} + 1$
