

Algebra 1

Unit 3

Lesson 4 Homework

Name_____

Date_____

Period_____

A line passes through the points $(-3, 7)$ and $(4, -2)$. Use this information for questions 1 through 3.

1. Find the slope of the line. Show your work.
2. Write the equation of the line in point-slope form.
3. Rewrite the equation of the line in standard form.

Lee uses reclaimed rainwater in his garden. At 2 p.m., the water level in his rain barrel was 2.4 inches. During an afternoon rain shower, from 2 p.m. to 5 p.m., the rain fell at a steady rate. At 5 p.m., the water level in his rain barrel was 3.95. Use this information for questions 4 through 7.

4. Determine two ordered pairs on the graph of this relationship.
5. Use the two ordered pairs to find the slope of the line.
6. Use an ordered pair and the slope to write the equation of the line in point-slope form.
7. Use the two ordered pairs to write the equation the equation of the line in slope-intercept form.

A line has an x -intercept of -5 and a y -intercept of 3 . Use this information for questions 8 through 10.

8. Find the slope of the line.

9. Write the equation of the line in slope-intercept form.

10. Write the equation of the line in standard form.
