Lesson 1 Practice

Name Answer Key
Date _____
Period _____

The graph of $y = -\frac{7}{3}x - 2$ is shown. The graph has a restricted domain.

1. Give a written description for the range.
All values greater than or equal to -8 and less than or equal to 8 .
2. Write the domain using inequalities.
 $-5 \leq x \leq 3$
3. Write the domain using set-builder notation.
 $\{x: -5 \leq x \leq 3\}$
4. Write the range using set-builder notation.
 $\{y: -8 \leq y \leq 8\}$

For each written description complete the table.

Written Description	Inequalities	Set-builder notation
5. All values less than or equal to $5\frac{3}{4}$	$x \leq 5\frac{3}{4}$	$\{x: x \leq 5\frac{3}{4}\}$
6. All values greater than -2.6 but less than or equal to 8.9	$-2.6 < x \leq 8.9$	$\{x: -2.6 < x \leq 8.9\}$
7. All values greater than $-\frac{22}{6}$	$x > -\frac{22}{6}$	$\{x: x > -\frac{22}{6}\}$

8. Write a written description of the set of values represented by $\{x: 30.2 > x \geq -3.8\}$.
 All values greater than or equal to -3.8 but less than 30.2 .

9. Write the set of values represented by $\{h| h < -0.25\}$ using inequalities.
 $h < -0.25$ or $-0.25 > h$

10. Write the set of values represented by $c \geq \frac{5}{6}$ using set-builder notation.
 $\{c: c \geq \frac{5}{6}\}$
