

Algebra 1
Unit 8
Lesson 4 Practice

Name **Answer Key** _____
Date _____
Period _____

1. Graph the equation $y = 4x^2 - 10x + 8$.

2. Write the key features that can be determined from the equation.

$y = 4x^2 - 10x + 8$	
x-intercept	
y-intercept	(0,8)
Vertex	
Domain	All Real Numbers
Range	
Left end behavior	$x \rightarrow -\infty, y \rightarrow \infty$
Increasing	
Decreasing	
Positive	
Negative	
Opens up/down	Up
Axis of symmetry	
Right end behavior	$x \rightarrow \infty, y \rightarrow \infty$
