

Algebra 1
Unit 9
Lesson 2 Homework

Name _____
Date _____
Period _____

Use the information provided in each graph to write the equations in vertex form and standard form.

1. Identify the points.

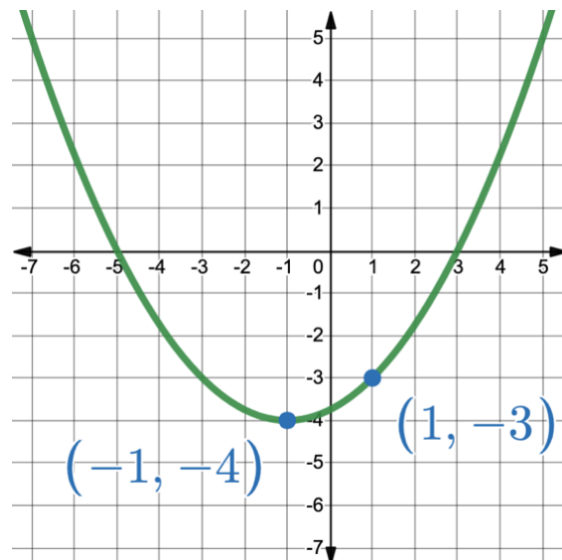

a. Vertex: (____, ____)

b. Point: (____, ____)

2. Write the equation for this quadratic in vertex form and standard form.

a. Vertex form:

b. Standard form:

3. Identify the points.

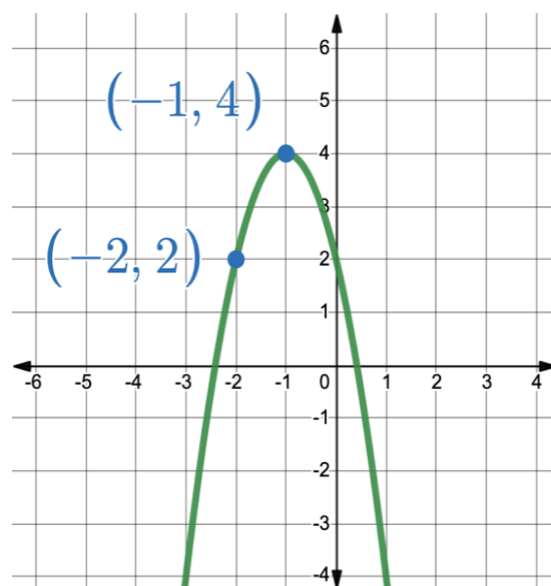

a. Vertex: (____, ____)

b. Point: (____, ____)

4. Write the equation for this quadratic in vertex form and standard form.

a. Vertex form:

b. Standard form:

5. Identify the points.

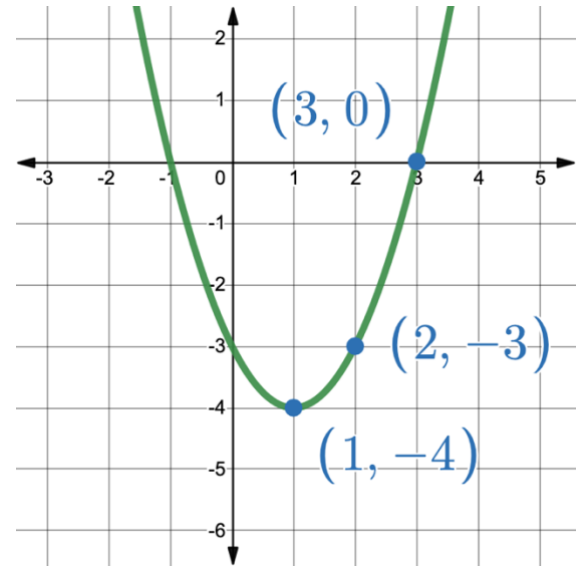

a. Vertex: (____, ____)

b. Point: (____, ____)

6. Write the equation for this quadratic.

a. Vertex form:

b. Standard form:

7. Identify the points.

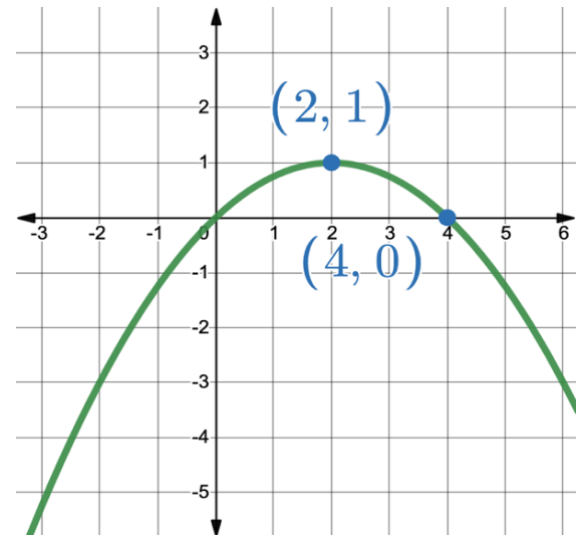

a. Vertex: (____, ____)

b. Point: (____, ____)

8. Write the equation for this quadratic.

a. Vertex form:

b. Standard form:

9. Identify the points.

a. Vertex: (____, ____)

b. Point: (____, ____)

10. Write the equation for this quadratic.

a. Vertex form:

b. Standard form:
