

Algebra 1: Unit 10, Lesson H2

1. An absolute value inequality is shown.

$$|x + 3.1| \geq 6.1$$

Write the compound inequality that represents the solution set of the absolute value inequality.

2. The flight time from Miami, FL to Sarasota, FL is on average 34 minutes. All flights are within 5 minutes of the average. Select all possible flight times from Miami to Sarasota.

What is range of flight times from Miami to Sarasota?

3. An absolute value inequality is shown.

$$|x - 3.25| < 8$$

Write the compound inequality that represents the solution set of the absolute value inequality.
