

Algebra 1
Unit 11
Lesson 2 Practice

Name _____
Date _____
Period _____

1. The graph of $y = -1(1.7)^x$ is ☐ increasing and is ☐ positive.
☐ decreasing ☐ negative.

2. The graph of $y = \left(\frac{7}{3}\right)^x$ is ☐ increasing and is ☐ positive.
☐ decreasing ☐ negative.

Use the graph and table of $y = -\frac{3}{4}(1 - 0.5)^x$ to determine key features.

Key Features			
3. Domain		4. Range	
5. y - intercept		6. Constant Percent Rate of Change	
7. Increasing or Decreasing		8. Positive	
		Negative	
9. Left End Behavior		10. Right End Behavior
