

Algebra 1
Unit 11
Lesson 2 Homework

Name _____
Date _____
Period _____

1. The graph of $y = \left(\frac{5}{6}\right)^x$ is ☐ increasing
☐ decreasing and is ☐ positive.
☐ negative.

2. The graph of $y = 2(1 + 0.25)^x$ is ☐ increasing
☐ decreasing and is ☐ positive.
☐ negative.

Use the graph and table of $y = 2\left(\frac{9}{5}\right)^x$ to determine key features.

Key Features			
3. Domain		4. Range	
5. y - intercept		6. Constant Percent Rate of Change	
7. Increasing or Decreasing		8. Positive	
		Negative	
9. Left End Behavior		10. Right End Behavior
