

Unit 14: Worked Examples

Teen Social Media Survey

Effect on People Your Age

Time spent With friends in Person		Mostly Positive	Mostly Negative	Neutral	Total
	Too Much	22	21	20	63
	Too Little	87	77	105	269
	Just Right	110	113	186	409
	Total	219	211	311	<u>741</u>

- What percentage of respondents reported that the effect of social media is mostly positive and reported that they spend too much time with friends in person?

$$\frac{22}{741} = 0.0297 = 2.97\% \text{ or } 3\%$$

- Construct a two-way frequency that summarizes the data:
 - 33 Brown hair, blue eyes
 - 18 Brown hair, brown eyes
 - 11 Blonde hair, brown eyes
 - 24 Blonde hair, blue eyes

	Brown Hair	Blonde Hair
Blue eyes	33	24
Brown eyes	18	11
