

Algebra 1: Unit 14, Lesson 2

1. A group of young people were surveyed about their choice of activity to do during their spare time (read a book, play a game outside, or watch television). The two-way frequency table summarizes the responses of the survey.

	Book	Game	Television	Total
Children	10	16	8	34
Teen	9	20	14	43
Adults	11	13	10	34
Total	30	49	32	111

What is the largest marginal frequency?

2. Suzanne reviewed the variety of flowers and their colors at the local flower shop. She summarized her findings in the two-way table shown.

	Red	White	Yellow	Purple	Total
Small		12	8		35
Large		19		4	45
Total	22		15	12	80

How many large yellow flowers did Suzanne observe?

3. A group of young people were surveyed about their favorite type of animal (cat, dog, or snake). The two-way frequency table summarizes the responses of the survey.

	Cat	Dog	Snake	Total
Children	9	12	2	23
Teen	17	15	14	46
Adults	18	22	7	47
Total	44	49	23	116

What is the smallest joint frequency?
