

Geometry: Unit 9, Lesson 5

1. What is the height of $\triangle ABC$?

2. Line segments $\overline{YB}$, $\overline{RD}$, $\overline{XF}$, $\overline{GH}$, $\overline{WS}$, $\overline{KL}$, and $\overline{TN}$ are shown on the coordinate grid. What is an example of two parallel line segments?

3. Triangle WXC is shown where $WC = 25$ centimeters (cm). The base length of 24 cm is shown for the corresponding right angle triangle. What is the value of h ?
