

Use $\triangle ABC$ to answer questions 1-7.

1. Construct the three perpendicular bisectors for $\triangle ABC$.

2. Label the circumcenter of the triangle as Point R .
3. Use a ruler to measure the length of segment AR .
4. Use a ruler to measure the length of segment CR .
5. Use a ruler to measure the length of segment BR .
6. Use a compass to draw the circumscribed circle around the triangle.

Use $\triangle XYZ$ to answer questions 7-10.

7. Construct the three perpendicular bisectors for $\triangle XYZ$.
8. Label the circumcenter of the triangle as Point T .
9. Use a compass to draw the circumscribed circle.
10. Given that the measure of arc $XYZ = 140^\circ$, what is the measure of $\angle Y$?
