

For each set of images name the type(s) of symmetry the image represents.

	Set of Four Images	Symmetry
1.		Translational, Reflectional, and Rotational
2.		Rotational
3.		Rotational
4.		Translational and Reflectional

A figure is shown.

5. How many lines of symmetry does the figure have?

5

6. What is the order of rotational symmetry for the figure?

5

A series of four squares is shown.

7. Use the pattern in the first two squares to complete the pattern in the last two squares.
8. What type of symmetry is shown in this series of squares?

Translational symmetry

A series of 4 squares is shown.

9. Use the pattern in the first two squares to complete the pattern in the last two squares.
10. What type of symmetry is shown in this series of squares?

Rotational Symmetry
