

Geometry
Unit 2
Lesson 6 Homework

Name _____
Date _____
Period _____

Determine if each statement is true. Rewrite each false statement using the word "some".

	Statement	True or False	Re-write
1.	All even numbers are composite.		
2.	All points that lie in the same plane are coplanar.		
3.	All linear pairs are supplementary.		

Write each statement as an if-then statement.

	Statement	If-Then
4.	All even numbers are composite.	
5.	All points that lie in a plane are coplanar.	

6.	All linear pairs are supplementary.	
----	-------------------------------------	--

Write the negation of each statement.

	Statement	Negation
7.	$\triangle ABC$ is an equilateral triangle.	
8.	$\angle DEF$ and $\angle KLM$ are supplementary angles.	
9.	$\angle JKL$ and $\angle XYZ$ are vertical angles.	
10.	$m\angle DEF + m\angle KLM = 125^\circ$
