

Geometry: Unit 6, Lesson H2

1. The ratio between the circumference of circle W and circle B is $\frac{4}{5}$. What is the circumference of circle B if the radius of circle W is 12 inches?

2. Circle C and circle N are shown on the coordinate plane. What is the ratio of the radius of circle C to the radius of circle N ?

3. Circle K has a radius of 5.4. What is the circumference of Circle K ?
