

Determine the area of each triangle using the given information. Round your answer to the nearest hundredth.

	Triangle	Given Information			Area
1.	$\triangle HTR$	$HR = 15$	$TR = 19$	$m\angle HRT = 32^\circ$	
2.	$\triangle FNW$	$NW = 23$	$FN = 31$	$m\angle FNW = 107^\circ$	
3.	$\triangle BTM$	$BT = 3.9$	$MB = 2.7$	$m\angle MBT = 56^\circ$	
4.	$\triangle DLX$	$DX = \sqrt{27}$	$LX = \sqrt{20}$	$m\angle DXL = 63^\circ$	
5.	$\triangle GZW$	$ZW = \frac{65}{8}$	$GW = \frac{93}{10}$	$m\angle ZWG = 77^\circ$	

6.

$\triangle TMR$

$TR = 16.2$

$MT = 12.1$

$m\angle MTR = 51^\circ$

7.

$\triangle CNW$

$NW = \sqrt{7}$

$CN = \sqrt{7}$

$m\angle WNC = 40^\circ$

8.

$\triangle BHX$

$HX = 9.8$

$XB = 11.1$

$m\angle HXB = 84^\circ$

9.

$\triangle RTW$

$TW = 15$

$WR = 19$

$m\angle TWR = 145^\circ$

10.

$\triangle XYZ$

$XY = 4\sqrt{3}$

$YZ = 3\sqrt{2}$

$m\angle XYZ = 129^\circ$
