Unit 11

Lesson H1 Homework

Name_____

Date_____

Period_____

Complete the missing steps showing one way to construct an equilateral triangle inscribed inside a circle.

Step	Procedure
1	Use a compass to draw a circle. Mark the center and label it.
2	
3	Mark any point on the circumference of the circle.
4	
5	Continue around the circle making a total of five small arcs.
6	
7	

Use Point A to construct an equilateral triangle inscribed inside a circle.

A

Complete the missing steps showing one way to construct a hexagon inscribed inside a circle.

Step	Procedure
1	Use a compass to draw a circle. Mark the center and label it.
2	
3	Mark any point on the circumference of the circle.
4	
5	Continue around the circle making a total of five small arcs.
6	
7	

Use Point *P* to construct a hexagon inscribed inside a circle.
