

Complete the table for each image in questions 1 and 2.

Question 1	Work		Answer
			Properties
	Slope		
	Side Lengths		
	Diagonal Lengths		Quadrilateral

Question 2	Work		Answer
			Properties
	Slope		
	Side Lengths		
	Diagonal Lengths		Quadrilateral

For questions 3 and 4, given the coordinates, classify the quadrilaterals based on their properties.

Question 3	Work		Answer
			Properties
<i>CMHG</i> has vertices at $C(9, -1)$, $M(2, 5)$, $H(-7, 7)$, and $G(0, 1)$. <i>CMHG</i> is classified as a(n) _____ because.....	Slope		
	Side Lengths		
	Diagonal Lengths		Quadrilateral

Question 4	Work		Answer
			Properties
<i>TCBY</i> has vertices at $T(-3, -7)$, $C(5, -3)$, $B(3, 1)$, and $Y(-5, -3)$. <i>TCBY</i> is classified as a(n) _____ because.....	Slope		
	Side Lengths		
	Diagonal Lengths		Quadrilateral
